<b>TV Sound Streamer</b> The TV Sound streamer transmits Dolby® Digital sound quality television audio direct all Bluetooth® enabled Signia hearing aids. Features include: attractive minimalist design, LED status indicator, easy pairing, connection to multiple pairs of hearing aids, optical and analogue audio input.		1 YEAR	£199
<b>Streamline Mic</b> The StreamLine Mic. functions as a remote microphone to help you in challenging hearing situations, such as crowded meetings. You can stream a speaker's voice directly into your hearing aids from up to 20 meters. As a result, you hear the speaker as clearly as if he or she were standing right next to you.		1 YEAR	£229
<b>miniPocket Remote Control</b> The ideal solution for anyone who wants discreet, convenient control of their hearing aids without the need for a large remote control or smartphone. Reliable and easy to use, the miniPocket is small enough to carry on a key ring yet powerful enough to control all essential features.		1 YEAR	£119

Our recommendations are based exclusively on clients' personal needs and circumstances. Prices include a hearing test and product consultation, hearing aid fitting, lifetime aftercare and two years supply of batteries.
